

ADDENDUM NO. 1

Delete item V.D and replace with the following revised V.D:

V. Selection Process

The successful Proposer will be selected by an architectural and engineering selection committee (the "A&E Selection Committee"). To ensure fair consideration for all Proposers, there is a prohibition against any discussion with A&E Selection Committee members about the Project from the date RFQ is posted to the DPAC website (www.orlandopac.org). DPAC bylaws also prohibit communications initiated by a Proposer or a Proposer's representative to any A&E Selection Committee member and any DPAC Board member involved in evaluation or consideration of the submittals. Such communication initiated by a Proposer or Proposer's representative may be grounds for disqualification of the offending Proposer by the A&E Selection Committee from consideration for ranking and for award of a contract.

All questions concerning this Request for Qualifications prior to submission should be addressed by email to the attention of Mike Woollen of HKS Architects, Inc. at the following email address:

mwoollen@hksinc.com

The A&E Selection Committee members for this Project are as follows:

DPAC: - Jim Pugh, Kathy Ramsberger, Jean-Marc Allard, Dr. Rita Bornstein, Don Ammerman
HKS/Baker Barrios – Matt Clear, Carlos Barrios
Hines – Jerry Lea, Mark Chenoweth, Chuck Watters, Michael Gross
Barton Myers & Assoc. – Barton Myers, Ryan Ihly, Peter Rutti
Anderson & Associates – Veronica Anderson and Susan Brosch

The A&E Selection Committee will review and evaluate the Proposals. All firms proposing will be evaluated to determine if they are fully qualified to perform the services required herein. Among the factors to be considered in making the finding are the capabilities, adequacy of personnel, track record and experience of the firm, any exceptions to the proposed form of agreement, proposer's insurance, and fee proposals. Further written documentation may be requested, and failure to promptly supply information in connection with such request, including, but not limited to, information regarding past performance, financial stability, and ability to perform on schedule, may be grounds for determination of non-responsiveness with respect to the Proposal. HKS and the Development Manager will then enter into negotiations, if needed, with the top-ranked Proposer with the intention of entering into an agreement. If negotiations with the top-ranked Proposer are unsuccessful, then negotiations with this Proposer will be terminated and negotiations will begin with the next successively ranked Proposer until a successful contract is negotiated.
