

DR. P. PHILLIPS ORLANDO PERFORMING ARTS CENTER PROJECT TEAM

ARTEC CONSULTANTS INC

Artec Consultants is the global leader in the design and planning of innovative performing arts facilities. Founded in 1970, Artec provides specialized consulting services for facilities of all types from educational facilities, opera houses, concert halls, and multi-purpose theatres, to open air venues and historic renovations.

Artec applies a unique interdisciplinary and comprehensive approach that allows us to provide our clients with harmonious design solutions appropriate for the resources available for each project. Their ability to develop ideas and resolve issues in a coordinated and fully collaborative manner is a prime reason that Artec has led the field with the highest quality results and many innovations in the last 35 years. www.artec.com

Damian Doria –Partner. Since joining Artec in 1994, Damian Doria has applied his knowledge of acoustical engineering and music to a wide range of projects. His expertise in noise and vibration control, sound isolation, and room acoustics has advanced the quality of Artec’s designs, while his musical training has greatly contributed to Artec’s process of planning performing arts venues.
