

DR. P. PHILLIPS ORLANDO PERFORMING ARTS CENTER PROJECT TEAM

DONNELL CONSULTANTS INC.

DCI was founded in Tampa in 1986, particularly to serve this highly specialized market sector of performing and visual arts facilities' program analysis, budgeting and capital cost control in a committed way. The company is firmly established in this field and is well-known in Florida, across the U.S. and internationally in this regard. DCI has been very successful in attracting clients whose projects range from modest community theatres to very high profile facilities to house internationally acclaimed orchestras, theatre, opera, dance and ballet companies designed by world class architects, acousticians and theatre planners. DCI has a depth of reliable, personally developed and accurate statistical and cost data on its range of concert halls, theatres, opera houses, multi-purpose halls, performing and visual arts projects per our experience record. www.dccost.com

Stewart A. Donnell, FRICS – President. Mr. Donnell has been instrumental in advancing cost control techniques in the USA and Canada for governmental, institutional and private sector clients. His experience has focused on the performing arts field in the past 21 years and in the past 18 years, his experience has been virtually exclusive on theatres, concert halls and multi-purpose halls and other special projects. Mr. Donnell's services customarily commence at program analysis and budgeting, and then continue uninterrupted for the complete pre-construction design stages.
